E S E N C I A

ANNUAL NEWSLETTER 2021-22

ACADEMIA

M E S S A G E

EMBRACING THE CHANGE IN THE NEW NORMAL

Since its inception, PSMO College has established itself as a centre of quality education upholding the core values of service, self-respect, social justice, care, competence, and excellence. The college has been accredited with A grade by NAAC in the second cycle. In the current year, we are moving ahead for the third cycle of NAAC accreditation. The whole academic community of the college is working hard round the clock for getting the SSR ready for submission in

February, 2022. In the third cycle of the NAAC accreditation, the institution is looking forward to a higher grade than those acquired in the previous cycles. At present the College is home to ten under graduate, eight post-graduate, and five research departments with fifty two research scholars currently pursuing PhD in various disciplines. The Learning Management System developed by the college facilitated blended learning which helped the faculty as well as the students render the adversity to an opportunity in the era of COVID-19 and to extend the teaching learning process beyond the limits of classrooms and fixed timetables. Apart from these, we have implemented many developmental activities such as rendering the campus a 100 percent Wi-Fi zone, installing 15 KW Solar System, Rainwater Harvesting Unit, Multi Fitness Center and creating Butterfly, Water and Botanical gardens on the campus. PSMOC's Save E Electronics LLP, a company manufacturing LED lamps exploiting a sensor-based automatic technology, has started functioning in the college. The college also provides technical support to startup companies like MYCROWB Your Eco Friend LLP. We could also make the campus friendly to the differently abled persons. 'ESENCEIA' reflects the ingenuity and dedication of the PSMO fraternity. It is a matter of pride that the Newsletter is bound to fulfil the objective it has envisioned.

Dr. K. Azeez, Principal

The academic year 2021-'22 is highly significant for PSMO College as it faces the third cycle of NAAC Accreditation. It is my great pleasure that we, the management committee, could bring about remarkable improvements in the infrastructure of the institution, that are decisive for students and teachers to achieve the expected academic goals. I am happy to note that all the outstanding achievements and major activities of the management, students, faculty members, alumni etc are included in this issue of the newsletter. I gratefully acknowledge

the trust and confidence bestowed on us by the stakeholders and thus giving us an opportunity to serve the society. I appreciate your continued commitment to the college and its growth. I extend my best wishes to all the stakeholders of the college.

M.K. Abdurahiman, Chairman,
PSMO College Managing Committee

'Verily, with every difficulty there is relief'

VISION

To achieve national and international recognition as a premier academic institution, through extraordinary, student centered, value based, teaching learning practices and quality research output.

MISSION

- To align the academic endeavours of the College with the best nationally and globally
- To collaborate with institutions of eminence leading to elevated student experiences
- To establish student centered instructional ecosystem with active learning practices
- To provide top-class exposure to research in terms of thought and material support

CORE VALUES

SERVICE

The College had its beginning in the zeal of its founding fathers to serve a deprived section of the community, the orphans. Hence the whole moral edifice of the institution is built on the value of serving the community. The faculty and students are oriented to this founding value of the College by connecting it to the institution's core principles and strategies. To learn and work at PSMO College is to learn to serve and live to serve.

SELF RESPECT

Education at PSMO College is aimed at helping the learner understand oneself, leading to developing the learners' self awareness and self respect. The College holds on to the belief that self respect is the core concept on which the respect for others could be built.

SOCIAL JUSTICE

A sense of fairness to all the members of the community underscores the educational philosophy of the College. At

PSMO we inculcate egalitarian attitudes and a willingness to accommodate the other so that fairness could be made possible at political, economic and social transactions in the larger communities outside.

CARE

The ideas of service and care are intertwined. To serve is to care. Hence all relationships among the stakeholders of the College are defined by the willingness to care for one another and for the environment too. It stems

from the 'care for the needy' philosophy of the founders of the College.

COMPETENCE

Rendering the learners competent in their disciplines by all means governs the teaching-learning processes at PSMO College. Knowledge wise and skill wise, attitude wise and value wise, all the learners who enter the campus are made ready to join the world by the sheer competence they possess.

Talk: Cultures in Comparison

This presentation will make a quick journey through different cultures that lie beyond the political borders of our nation. It will be observed that, cultures after show some striking similarities with ours and at the same time, maintain their differences at some crucial aspects. The presentation will also cast light on to the relatedness and differences between some of the fundamental institutions of culture like religion, family, schooling etc. across the globe, in their operations in different civilisations from Egyptian to Turkish, from Sri Lankan to American.

Speaker: **Sumaiya Mustafa**

Ms. Sumaiya is a graduate in Engineering and a post-graduate in Computer Science. After starting her professional life as an Assistant Professor, she has left the field of academia a couple of years ago in order to pursue her passion, exploring the food culture. Driven by enthusiasm and curiosity in learning why we eat what we eat, Ms. Sumaiya found herself lost in many other spaces of heritage and culture. Currently a full-time learner and chronicler on ethnic culture, especially the eating practices, she has contributed significantly to our understandings about our food culture. Ms. Sumaiya has signed up with an NGO called Kaavi Nilam Tamil Nadu very recently. Her works can be accessed in Instagram at "reading".

Talk: What's your culture without food?

Starting from how the eating habits of our present times is shaped by our accessibility, affordability and feasibility, the presentation will go on to deconstruct the myth of authenticity involved around food, and further, will touch upon certain ingredients that are holy in the kitchens of various communities today to reveal facts about their arrival in the sub continent only in the recent centuries. This would do to give the audience a sense of how culture isn't a frozen part of societies but that which keeps evolving, through our everyday life.

CHILDLINE is a project of the Ministry of Women and Child Development, Govt. of India (GOI) in partnership with NGO's, International Donors, the corporate sector etc. It is a National, 24 hour, free emergency telephone helpline having a toll free number 1098 and outreach service for children who are in need of care and protection. The project provides emergency assistance to children, which includes medical aid, shelter, restoration, rescue, sponsorship and emotional guidance.

Childline Malappuram nodal centre conducted many training and child protection awareness programmes

during the academic year 2021-22. The pandemic restricted the project to conduct many programmes

on virtual platforms. The objective of the programme was to give awareness to the general public about the

importance of child rights and reduce the issues of child abuses.

INTERNATIONAL CHILDREN'S DAY CELEBRATION

Childline Malappuram organized a Child Rights Week called **Childline Se Dosti-2021** from November 14 to November 20 in connection

with International Children's Day in view of the increasing violence against children in the society. Various events were organized

in collaboration with the district child protection agencies and other departments. The aim of the programs was to spread the

message of child protection in the community and to involve the general public in child protection activities.

RIDE FOR SAFE HEALTHY CHILDHOOD

As part of the “Childline Se Dosti” campaign, the Malappuram Childline, the State Child Rights Commission, the District Child Protection Unit and the District Legal Services Authority jointly organized a cycle rally from Manjeri to Malappuram titled ‘Safe and Healthy Childhood’ on 14 November 2021. Mr. S Murali Krishnan, Hon. District Judge inaugurated the function and Adv. Shahjesh Bhaskar, CWC Chairman presided over the function. Mr. MP George, Juvenile Justice Board Member, Abdul Majeed and CP Saleem, Nodal Coordinator, Childline Malappuram spoke on the occasion.

BALASABHA members under Kudumbasree visited various police stations in the district as part of the programme, SMILE, organised by Childline as part of Children's Day on Sunday. Police officers at each station informed children of their rights and the role of the police in preventing the crimes against children.

All 34 police stations in the district were included in the programme. The children also visited the fire stations in the district. The personnel taught children about the function of fire and rescue stations and the machineries used by them to rescue people.

Meanwhile, various awareness programmes were organized at Iruttukuthi tribal colony in Pothukal panchayat as part of the Children's Day. Child protection officer Fazal Pullatt conducted an aware-

Ph.D. AWARDEES

Lt. (Dr.) Nissamuddeen Kunnath
Asst. Professor of Physics

Lt. Dr. Nissamuddeen K completed his PhD from the Department of Instrumentation, Cochin University of Science and Technology (CUSAT), on 08 September, 2021. The PhD was awarded in the faculty of Technology with Physics being the subject. The thesis was entitled 'Structural, Dielectric and Piezoelectric Properties of Selected Lead-Free Ceramic Nanocomposites Exhibiting Morphotropic Phase Boundary' and the study was conducted under the guidance of Dr. Jacob Philip, (Former) Director, Sophisticated Test and Instrumentation Centre (STIC), CUSAT.

Dr. Subair P
Head, Dept of Arabic

Dr. Subair P has done his PhD on the topic 'Trends and Challenges of Arabic Language in the Field of Information Technology'. This work discusses some of the elements of the topic such as the history of Arabic in the field of information technology, issues of keyboards, Arabic CAPTCHA on the Internet, OCR recognition of the Arabic texts, Interactive literature in Arabic, the influence of social media on the Arabic, globalization and its impact on the Arabic, Machine translation, Online lexicon programs, Artificial intelligence and its adoption to Arabic, Machine Auto grammar checking techniques, Arabic contents in the Internet, Arabic OSs and its issues, digitization of books, E-Learning of Arabic and Techniques and the process of finding intellectual properties from Arabic resources.

Dr. Jahfar TK
Assistant Professor
of Mathematics

Dr. Jahfar TK has completed his doctoral degree on 'Spectra and Energies of Certain Graphs'. The study helps us construct infinite family of co-spectral graphs with respect to adjacency, Laplacian, signless Laplacian matrices and also used for the construction of graphs having reciprocal eigenvalue property and anti-reciprocal eigenvalue property. More over different methods to address the equienergetic, Randić equienergetic, order energetic and hypoenergetic graphs are incorporated.

Dr. Jasin Taj T
Assistant Professor
of English

Dr. Jasin Taj T has been awarded PhD from the Department of Studies in English, Kannur University, under the guidance of Dr. K.K Kunhammed. The thesis titled 'Uncovering the Wounds: Post-traumatic Subjectivity in the Plays of Mahesh Dattani, Manjula Padmanabhan and Asif Currimbhoy' analyses the ways in which traumas become a powerful shaping influence in the victims' lives. Focusing on diverse traumatic experiences, the study attempts to locate the symbolic representations of trauma that alter the subjectivity of the characters in diverse walks of life, including psychic, social and cultural ones.

Dept. of Commerce &
Management studies

Dr. Sameeha T has done her PhD on 'Determinants of Firm Export Performance and Moderating Effect of Special Economic Zone Programme' under the guidance of Dr. P.M Habeeburahman, Former Head, Dept. of Commerce and Management Studies. The

study brings out the major factors influencing export performance of firms and analyses the contribution of Special Economic Zone program to the total export of India and help the firms to be successful in international market.

IGNOU STUDY CENTRE

Mr. K.M. Abdul Majeed
Coordinator

an inclusive knowledge society through inclusive education.

IGNOU offers high quality teaching through the Open and Distance Learning (ODL) mode. The University began by offering two academic programmes in 1987, i.e., Diploma in Management and Diploma in Distance Education, with an intake of 4,528 students. Today, it serves the educational aspirations of over 3 million students in India and other countries through 21 Schools of Studies and a network of 8 regional centres, around 2,667 learner support centres and 29 overseas partner institutions.

The University offers about 228 certificate, diploma, degree and doctoral programmes, with a strength of nearly 810 faculty members and 574 academic staff at the headquarters and regional centres and about 33,212 academic counsellors from conventional institutions of higher learning, professional organisations, and industry among others.

To achieve the twin objectives of widening access for all sections of society and providing continual professional development and training to all sectors of the economy, the University uses a variety of media and latest

technology in imparting education. In PSMO College, those who have completed 20 years of age can join for a six month preparatory course under the open stream of the University. The successful completion of this course will enable the students to join for BA/B.Com/BTS courses offered at this centre. The study centre also offers Post Graduate courses in English, Commerce and Sociology. Moreover, a number of certificate courses are also offered. The Degree and PG students of the college can also join these certificate courses as IGNOU classes are conducted on holidays.

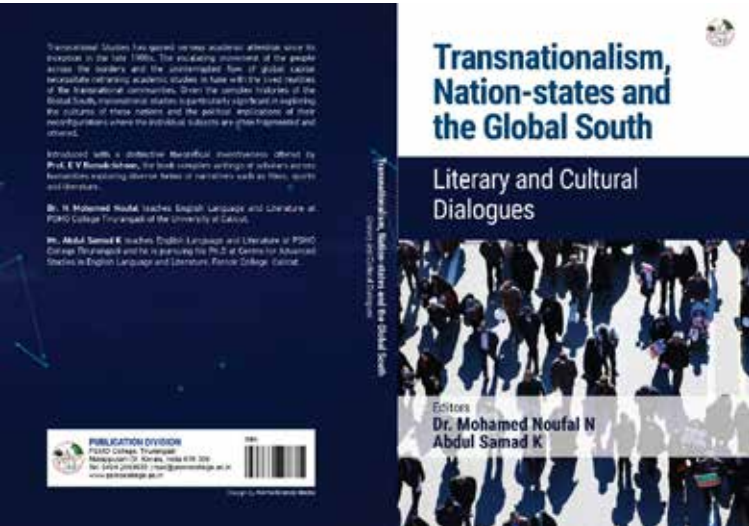

A study centre of Indira Gandhi National Open University has been functioning in the college since 1992. The Indira Gandhi National Open University (IGNOU), established by an Act of Parliament in 1985, has continuously striven to build

WHO RECOGNITION FOR THE COVID-19 RESEARCH ARTICLE

The Research article entitled 'Healthcare Management through Mitigation of COVID-19 Pandemic with Leafy Vegetables' published in *Annals of Phytomedicine* has been recognised by World Database of COVID-19 for World Health Organisation. This research article was published by seven College Teachers including Dr. K Azeez, Principal, PSMO College and was compiled as part of a research study on how to boost covid immunity. A group of biologists from several colleges in Kerala have found that plant-based food supplements could ward off the pandemic COVID-19. Many studies revealed that COVID-19 infection could be prevented by the powerful antioxidant glutathione and bioflavonoid quercetin, a kind of plant pigment, and plant-based foods can increase human immunity.

The authors of the article include A.K. Abdussalam, P.K. Prajith, P.V. Jyothi, K.P. Prasanth, A.P. Anu, K. Azeez, and M.K. Ratheesh Narayanan.

FEATURES OF OUR PRODUCTS

- Automatic ON/OFF. Go On automatically at dusk and go Off at dawn. Switch or remote is not required to operate the device.
- No LDR or timer circuit is used. 'Infrared Rays Controlled Automatic ON/OFF technology' - the newly invented patented technology - is used.
- High accuracy and fast response: Other lights like, moon light, tube light, neon lamp light and lightning do not affect the operation of this bulb. The ON/OFF operation is strictly controlled by the infrared rays from the sun. So, these products work well even in the countries where the day/night is shorter/longer and where there is cloudy season too.
- Long Life: Since the entire sensing circuit is well enclosed inside the body of the bulb/holder/streetlight, the presence of snow, moisture, dust or rain in the atmosphere does not damage the bulb/holder/streetlight. Thus, they get long life.
- 1 year warranty for all products

COMPARISON OF IRC TECHNOLOGY WITH THE EXISTING LDR TECHNOLOGY

No	LDR Technology	IRC Technology
1	A separate window is given for LDR sensor to receive light	No separate window is given for the sensor. The entire sensing circuit is well enclosed inside the IRC bulb/street-light.
2	If the sensor is covered by the dust, leaf, the moisture, or any particle from the atmosphere, the sensor will not work and the bulb/street light will remain in ON position. As a result, the bulb/street light glows continuously even in the day time which cause energy loss and reduce its life span.	Since the infrared rays pass through the dust, leaf or the moisture the deposition of such obstacles on the sensor do not affect the functioning of the bulb/street-light/holder.
3	Short life	Long life
4	The LDR sensor can detect all kinds of light from nearby sources like tube light, moon light, neon lamp light and lightning, etc. and this may adversely affect the proper functioning of the bulb/street-light	It detects infrared rays only. No other lights except infrared rays can affect its functioning.
5	LDRs are highly inaccurate with high response time: On the receipt of the light from other sources, the resistance varies continuously in photo resistor and are rugged in nature. If the temperature of the atmosphere changes, LDR will give inaccurate result. So, the LDRs are highly inaccurate with high response time	High accuracy and fast response: Since its operation is strictly controlled by the infrared rays from the sun, the IRC technology has high accuracy and fast response
6	Does not work well in the cloudy season	Works well in the cloudy season too

COMPARISON OF IRC TECHNOLOGY WITH THE EXISTING TIMER CIRCUIT TECHNOLOGY

No	TIMER CIRCUIT	IRC TECHNOLOGY
1	A timer circuit is required for its operation	No need to setting up a scheduled timer for the lights. The lights go ON only when the density of infrared rays from the sun is low
2	Complicated design	Simple design
3	Not applicable in the countries/ place where the day/night is shorter/longer.	Applicable anywhere and even in the countries where the day/night is shorter/longer.

SCHOLARSHIPS

Dr. Basheer M.C
Scholarship Officer

Central and State Government offer various scholarships for talented and financially backward students. They are Central Sector Scholarship, Suvarna Jubilee Merit Scholarship, CH Muhammed Koya Muslim Girls Scholarship, Indira Ghandhi Single Girl Child Scholarship, Post Metric Scholarship, Higher Education Scholarship, PG Merit Scholarship and Snehapoorvam Scholarship

INSPIRE SHE SCHOLARSHIP

INSPIRE Scholarship for Higher Education (SHE) is a scholarship programme implemented by the Dept. of Science and Technology (DST), Government of India. It is a scholarship scheme that comes under Innovation in Science Pursuit for Inspired Research (INSPIRE), a flagship programme of DST. It is meant for meritorious students undertaking bachelor's and master's courses in Natural and Basic Sciences. Under SHE, each selected candidate receives ₹ 80,000 annually for pursuing any subject of Natural or Basic Sciences.

SUMMER RESEARCH FELLOWSHIP PROGRAMME

The Central government offers summer fellowships for two months to bright undergraduate and postgraduate students of science studying in India. This programme has been popular and competitive. Each year, about 2000 students from all over India apply for the 80 fellowships. All the fellowships are supported by the Department of Science & Technology, Government of India. Students are placed with research groups

at JNCASR or with scientists elsewhere in India. They are paid a monthly stipend of Rs.10,000/- and travel expenses. Selected students get the opportunity to participate in cutting-edge research and several summer projects have been published in leading journals. Many of the students of summer fellowship have pursued a research career at leading research institutes JNCASR or central universities.

PSMO COLLEGE ALUMNI ASSOCIATION (2021-22)

Dr. PM Alavikutty
President

Mr. KT Mohammed Shaju
General Secretary

Mr. Abdul Amar M
Treasurer

PSMO College Alumni Association was formed in 1991 and since the year of its inception, the association has been playing a pivotal role in making the institution one of the best institutes of the country. The Association acts as a common platform for those who left the college after the completion of their course. This is a venue for all those members of alma mater to meet and share their views and to bring to mind their good old days spent on the campus. PSMO College Alumni Association is distinctive in its matchless service and support

rendering to the ongoing progress and advancement of the institution. They are involved in bringing about improvement in the infrastructure of the college, keen and considerate in giving scholarship to poor and deserving students and are interested in organising useful programmes like career guidance, counselling sessions and other training programmes by employing the expertise of eminent alumni members or by making available the international figures to the benefit of the students.

The Association membership is

granted to all students who leave the college after the completion of their course. The activities of the Association are managed by the parent committee of the Association. Besides this, Department wise Alumni Associations, NCC Alumni, constituted by ex-cadets of the college, and sports Alumni are instrumental in making the institute a premier one. Moreover, various Alumni Chapters are also rendering meritorious service at UAE, Jeddah, Riyadh, Qatar, Oman and USA. The functioning of all these Alumni Chapters and regional committees are monitored by the PSMO College Alumni Central Committee with Dr. PM Alavikutty as the President, Mr. KT Muhammed Shaju as the General Secretary and Mr. Amar Manarikal as the Treasurer.

The Alumni Association lends its full support to all the developmental projects of the college. The establishment of the

Digital Library, setting up of the Language Lab, construction of Alumni House and NCC Bhavan, interior sound engineering work of the auditorium, beautification works of the auditorium stage, etc are some of the major projects executed with the support of the Association. Furthermore, every year the Alumni Association, especially the chapters at Jeddah, Riyadh, UAE and Qatar are contributing generously a sum of money not less than Rs. 5 lakh towards Alumni Scholarship, which benefits around 150 to 200 poor and deserving students of the institute.

The Association regularly organises grand get together functions on the campus. The programme 'Back to PSMO' was organised in 2013 and *Suvarna Sangamam-2017* organised in connection with the Golden Jubilee Celebrations of the college in December 2017 turned out to be a memorable event.

PSMO COLLEGE ALUMNI ASSOCIATION SCHOLARSHIP

The PSMO College Alumni Association has always been considerate and kind enough to help the poor and deserving students of the college. The motto of the Association is '*No students shall be devoid of education and food due to lack of means*'. With this motive, the association contributes a sum of money not less than Rs. 5 lakh every year. Initially this scheme was started by UAE Alumni Chapter, later other chapters, viz., Jeddah, Riyadh and Qatar also joined the scheme. College utilises this fund for meeting the expenses incurred on students' purchase of study materials and uniform, providing midday meals, meeting conveyance cost and medical expenses.

COVID-19 VACCINATION DRIVE

The COVID-19 pandemic has been one of the greatest health crises in the recorded history. The pandemic has impacted almost all walks of life, changing the way we work and interact with our loved ones and stretching health care systems to the limit. Governments around the world have been forced to implement restrictions on the activities and movements of the people to prevent the spread of virus.

Stopping a pandemic requires using all the tools we have available. Wearing masks and social distancing reduce the chance of being exposed to the virus or spreading it to others. But these measures are not enough to prevent the viral infection. Only vaccines work with the immune system to fight against the virus if one exposed. In this sense, vaccination against COVID-19 will reduce the risk of becoming seriously ill and dying, since the person will be better protected.

The first wave of COVID-19 cases started piling up in the urban areas initially and spread to rural areas. The second wave has also followed the same pattern. The rise in the registered cases has not seen a concomitant increase in vaccination in rural areas. Many people face a difficult situation to get the vaccination on proper time. To take a small step to solve the problem, PSMO College Alumni Association in collaboration with Kerala State Health Department and various other organization set up Covid 19 Vaccination Camp in three spells in the college premises. This facility was extended to all students, staff members, former students and the native people who were not vaccinated. The vaccination was given on free basis. This was helpful to almost 700 people in and around the campus during the crisis time. This was a kind approach to the illiterate and those suffering from serious illness, difficult to travel long and such suffered community.

The camp was conducted in 3 spells. First drive was organized in association with Kerala State Health Department on 24 July 2021. This vaccine camp was organized for the persons who were in a difficult situation to get the vaccine. 100 people those who registered in Cowin portal were vaccinated with Covisheild Vaccine. During the drive all protective measures against COVID-19 were adopted. We extend our sincere thanks to the organizers of the camp.

The second Vaccination drive was conducted by the Alumni in alliance with Kerala Health Department, Indian Medical Association, Lions Club of Thirurangadi and Prasanth Hospital, Chettippadi on 3 August 2021. The camp was helpful for those who were faced difficulty in getting vaccine even having waited for months. 400 people were

vaccinated with Covisheild Vaccine in this phase.

The third drive was organized as a mega free vaccination camp in association with Kerala Health Department, Indian Medical Association, Lions Club of Thirurangadi, and Moonniyur Nursing Home on 16 September 2021. 200 people were vaccinated with Covisheild Vaccine in the third spell of the drive.

IMA president Dr. ES Sajeevan, Alumni General Secretary KT Shaju, Treasurer Abdul Amar M, PM Abdul Haque, Rafeeqe Parakkal, CV Basheer, Sidheeque Panakkal Firos Babu and Jahangeer led the Vaccination drive. College management committee Chairman MK Bava and Principal Dr. Azeez K provided all necessary facilities and support to make the drive a great success.

BASIC LIFE SUPPORT (BLS)

PSMO College alumni association organized a Basic Life Support training camp for the NSS Volunteers at college auditorium on 19 January 2022. Indian Medical Association, MKH Hospital Tirurangadi and Angels Malappuram were associated with this training programme. The programme was inaugurated by Moosa Vallikkadan, DYSP, Tanur.

Dr. Sree Biju, IMA representative who led the training programme, gave an informative speech on the importance of saving lives by giving first aid care for the needy people. The nurses of MKH

Hospital Tirurangadi and Volunteers of Angels Malappuram assisted the students in the training process. Students were given a practical training session to save lives by demonstration various first aids in emergency situations.

Shaju KT, Alumni Secretary, M Abdul Amar, Adv. KP Saithalavi, IMA President; ES Sajeewan, Lions Club officials Siddique Panakkal, Siddique MP, Jahangir MC, Dr. Shibnu S, College NSS Coordinator Dr. VP Shabeer and Dr. Munawwar Azeem MK addressed the gathering.

HONORING PADMASHREE WINNERS

PSMO College Alumni Association conducted a mega event to honour Padmashree KV Rabiya and Padmashree Balan Putheri, the prominent alumni of PSMO College, on 25 March 2022.

This will be the first time in the history of educational institutions in Kerala that two alumni of a college have won the Padmashree award in consecutive years.
